billeting area where,

the 74th (Nv?) Tank SP Regt and the 115th Now Arty Regt or the 94th
Gds Mtz Rifle Div and other artillery units, probably including the
136th Gun Arty Regt, are carried.
The
observation of rocket launchers on 8 November 1951 cannot be accounted
for, because the 10th Gds RL Regt was probably located in the Hindenburg
Easerne up to 12 November 1951.
The weapons observed in the Adolf Hitler Kaserne and the estimate of
the number of troops stationed there support the belief that the
installation quarters the 286th Mtz Rifle Regt and the 176th AAA Regt
of Bn of the 94th Gds Mtz Rifle Div.

A training area near the military post, with billeting space for units
from Schwerin which go there for training.

The Moltke Kaserne and the Krueger
